

# SEMINAR

## Qualifications-Based Selection *Promoting the Value of Quality First*

Qualifications-Based Selection (QBS) is the procedure that public agencies are required to follow in order to hire the most qualified engineering and land surveying firms. Join us for a discussion regarding the origins of QBS laws, and how ACEC California and ACEC Los Angeles Chapter are working together to ensure that QBS is used throughout Southern California.

**Learn about:**

- Federal, State, and local procurement laws
- The benefits QBS provides to design professionals, clients, and the public
- How to help your public clients adopt QBS policies

**Seminar Instructor:**

**Jennifer Teasdale, Policy Outreach Coordinator, ACEC California**

Jennifer joined ACEC California staff in Spring 2017 as the organization's lead on QBS matters. She also supports the Director of Government Affairs on legislative and regulatory policies. Jennifer previously worked as a legislative director in the State Senate.

**Wednesday, February 28, 2018**  
**8:30 - 10:30 am**  
**AECOM**  
1 California Plaza  
300 S Grand Ave.
